

## How does the shuttle operate?

**First and foremost the shuttle departs on time.**

Each bus has a clock that receives an atomic pulse that the federal government uses. This clock receives the same pulse that your cell phone receives, so if you have a cell phone you will know what the shuttle time is.

The shuttle leaves from the bus stop at its departure time. The bus will only stop at the designated locations listed inside. All stops are stop & go, please be at your stop early in case the shuttle is running ahead of schedule.

**First stop:** Will be Rice Hall the bus will arrive approximately 7 minutes from the time the shuttle leaves the Eagles Landing Mailbox. Please be there early, the shuttle will not come back through the Rice Hall on its way back to Eagles Landing.

**Second stop:** Will be the Student Health UTS Bus Stop. This is located across the corner from Cabell Hall. This will be a stop and go so be early.

**Third stop:** Will be the Nursing School/Pinn Hall stop the bus will arrive approximately 12 minutes from the time the shuttle leaves the Eagles Landing Mailbox. Once the shuttle leaves this stop it will travel straight back to Eagles Landing.

If you need to drive down to the Mailbox area, **PLEASE** park in the lot over looking the **POOL AREA**. We need to keep the clubhouse parking area by the mailboxes empty so the shuttles have room to operate.
